Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):*

The McLendon Property is located at the southeast corner of the intersection of Forest Glen Road and Seminary Avenue in the Forest Glen vicinity of Silver Spring. The property is located immediately north of the Capital Beltway. The property contains a 2½-story vernacular residence with a pyramidal hipped roof, and a 1-story front-gable shed. Constructed in 1922, the house is of wood-frame construction with a brick foundation, asbestos shingle siding and an asphalt shingle roof. The building lacks a front porch, but the west and rear elevations have porches enclosed with vinyl siding. The main block of the house has wood 2/2 double-hung windows, while the enclosed porches have vinyl 1/1 windows. A shed roof dormer is located on the front elevation, while a brick chimney is located on the west slope of the roof. The 3-bay front elevation has a replacement wood pane door near the northwest corner of the façade. The one outbuilding on the property is a 1-story wood-frame shed with wood clapboard siding, an asphalt shingle roof and a wood door on the north elevation.

Property Name: McLendon Property

Inventory Number: M: 31-34

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):* (CONT'D)

The McLendon Property is not eligible for the National Register of Historic Places due to a lack of historical and architectural significance. This property does not represent a historic event or trend that made a significant contribution to the development of the nation, state, or local community, and therefore is not eligible under Criterion A. This individual resource is ubiquitous to suburban areas and is not sufficient by itself to represent the theme of suburbanization. Historic research also indicates that the property has no association with persons who have made specific contributions to history, and therefore, it does not meet Criterion B. It is not eligible under Criterion C as it is an indistinctive example of a common building type. In addition, the integrity of the structure has been compromised by the enclosure of the west and rear porches. Finally, investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore, National Register Criterion D can not be assessed at this time.
